Respectfully,

Freedom 3 Liberation Newsletter is a publication produced for all inmates/prisoners by the Prime Minister S.R.J. of the M.O.P. (Minorities Over Throwing Prisons) organization, which is a society within a society of prisoners that was founded to shed light on the corruption taking place with the prison systems, mainly in the state of Florida and to promote peace, along with self betterment on behalf of all inmates as a whole.

Freedom 3 Liberation Newsletter is free to all inmates/prisoners and can be requested from the above distributor.

Freedom 3 Liberation Newsletter was founded because in order for a person to gain thier freedom and Liberation from the capitolistic prison system, they must first be provided with the proper materials to awaken the revolutionary nature within them!

7. What morals or principles does the M.O.P. organization stand on? The M.O.P. organization stands on six morals and principles. But our main principle is: We never turn our backs on those who are being oppressed because we never know when we will one day be oppressed.
8. September 30th of every year is celebrated as Prisoner's Day, which is a day when everyone comes together to show thier support for the M.O.P. organization.

Here's a little information about the Editor:

Shaquon Johnson was born and raised in the U.S. Virgin Islands. He relocated to Orlando Florida in 2012 and got locked up four months later at the age of eighteen for armed robbery. He was sentenced to fifteen years in prison and recieved an additional fifteen years in prison after prison officials brought false charges against him for litigating against them. He is currently being housed at Florida State Prison on Close Management Status, which is a security housing unit where he has been held for almost eight years now due to prison officials constantly bringing false disciplinary reports against him to keep him confined to prevent him from assisting his fellow inmates from revolutionizing against the Florida prison system. He is the Author of seven books that he is currently in the process of getting published and he has also been practicing Civil law. He is now looking for people of society to assist him with fighting for a reformation in the prison systems, mainly in the State of Florida.

"I am the light, I am the way. Follow me and you'll never go astray"

First and foremost, I'm sincerely hoping that this first edition of the Freedom & Liberation Newsletter has found all my fellow prisoners/inmates world wide in the best of health. As for m I've been faced with many unforgettable trials and tribulations in th last twelve years that I've been incarcerated in the state of Florida. But as rain doesn't break through a well built house, trials and tribulations doesn't break through a well grounded mind. Thus I continue to face life head on no matter what the oppositions maybe because what doesn't kill you will only make you stronger mentally, spiritually, emotionally, and physically. which is something that I've learnt personally while being incarcerated. My trials and tribulations is actually what has made me decide to pur use this newsletter to provide my fellow prisoners/inmates with the proper materials to assist them with gaining thier Freedo and Liberation from the psychological oppression that is being inflicted upon us on an everyday basis, especially in the Stat of Florida. I am actually the Prime Minister of the M.O.P. (Minorities Overthrowing Prisons) organization, which is a non profit organization that was founded to shed light on the Co ruption that's currently taking place in the Florida prison System and to promote peace, along with self betterment on behalf of all inmates/prisoners as a whole. I also intend to use this organization to bring about a reformation in the Florida

prison system by fighting for better educational programs, better food ower commissary prices, Justice for police brutality, and much more However, in order for me to accomplish this overall objective, us as Florida inmates/prisoners must take the initiative on our (4)
end to fight for this change by reporting the corruption that's currently taking place in the Florida prison system and litigating against this corruption as well. I understand that some inmates may be afraid to litigate against prison officials out of fear of retaliation and I'll never ask a person to go against thier better Judgement. However, I can assure my fellow inmates/prisoners as a whole, the more we litigate against prison officials, the more it's going to discourage prison officials for violating our rights as inmates/prisoners and if prison officials does in fact retaliate on you for litigating against them, then this is more grounds for you to litigate against them because it is a violation of our First Amendment Right for prison officials to retaliate on us for filing grievances or lawsuits against them. But not to many inmates/prisoners are aware of this because they are all under the impression that we no longer have rights since we are incarcerated and this is not true! I can careless how long your →
sentence is, you still have rights as an inmate and prison officials are not supposed to violate those rights. I actually didn't learn this until years later after prison officials had violated my rights on numerous occasions and now that I've learnt this, I intend to liti-

gate against prison officials every time they violate my rights as an inmate, which makes prison officials no longer treat me the way that they used to years ago because by litigating against prison officials, you have the ability to not only take them to Civil Court. But you can also get them fired and sent to prison. The good thing about this, is that the prison's law library has everythin a prisoner will need to litigate against prison officials and even if you're unable to get it out of the prison's law library there's numerous organizations that will send you this material free of charge or you or your loved ones can purchase this material for you. I've enclosed a list of organizations to the end of this news letter where you can request litigation material from and I've also enclosed a list of educational resources because in order for one to understand the laws of system, one must be educated and when I say educated, I'm not just refering to a formal education. I'm mostly refering to self education because what you will teach yourself, the system will never teach you because the less you know about the system, the harder it is for you to beat the system and this is why prison officials hates inmates/prisoners who litigates against them because litigators has the power to shut down prisons. I'm pretty sure prison officials in the state of Florida are probably going to ban my newsletter from entering into the Florida prison system and that will only support everything I'm currently saying about the power of litigation because the only reason

why prison officials will ban my newsletter is to prevent my fellow inmates/prisoners from knowing how much we can change the prison systems as a whole if we would only litigate about the way we are being treated as prisoners/inmates on an everyday basis. Unfortunately for florida prison officials, it wouldnt matter if my newsletter is banned from entering the florida prison system because everything I am currently saying in this newsletter is something that I preach to inmates on an everyday basis and I've been personally assisting my fellow prisoners with litigating against prison officials for violating thier rights as an inmate/prisoner. I've only decided to produce this newsletter to reach the masses of inmates/prisoners world wide because everything I am currently saying in this newsletter can and will be beneficial to all inmates/prisoners as a whole. I will also be producing a few more editions of this newsletter in the near future to touch on topics such as unity amongst inmates, less violence towards our fellow inmates, and more leadership amongst inmates_ because in order for us to reform the prison system, we must first begin by reforming our own state of mind. I understand some inmates may have a life sentence or might be released from prison shortly and can careless about reforming the prison systems. But regardless of what your sentence is, the fact still remains that prisoners/inmates should not be treated less of a human being simply because we are incarcerated and this is exactly why people are always coming back because prison officials are not providing us with the proper tools to assist us with rehabilitating ourselves. I've been incarcerated since the age of eighteen(18) years old and I can honestly say that I've not learnt absolutely anything from florida prison officials besides violence because there is no real educational/self betterment programs in the state of florida. The little education that I do have is what I taught myself and this is why us as prisoners/inmates must take the initiative on our end to fight for a reformation in the prison systems because it is time for a change, especially in the florida prison system.

Consequently, it was an absolute pleasure to have produced this newsletter and hopefully this newsletter is beneficial to my fellow inmates/prisoners, which I know it would be. I am also hoping that this newsletter will reach the masses of people in society and the people of society will support my cause that is guaranteed to last for generations to come. Thank you for your attention in this matter and always remember the words of the great Malcom X "Prison is nothing but a poor man's college."
