ANARCHISM

— Hymeyohsts Storm —

"Our laws of Men change with our understanding of them. Only the Laws of the Spirit remain always the same".

JUST ANOTHER BRICK IN THE WALL!

" Their Thoughts Are Chains In The Classrooms "

- SID BARRAT -

The sole purpose of the prison industry is to manufacture sociopathic criminals which are unleashed upon society to spread mass fear and paranoia. The Big Government lie is that the police are needed in a 'FREE SOCIETY' to ... Keep The Peace ... Actually, the opposite is true. Police are hired to incite violence and fear by making sure that "The state Produced Criminals"... Sell crack, rape, Car Jack, Kidnap, rob, Steal credit lines, Shoot each other with guns (Also, manufactured by The Government), terrorize citizens, etc ... and All manner of socio-violence.

In the Control prisons, the psychologist lectures prisoners who are locked in rows of cages, on "How they and/or we, are 'Psychopathic Criminals' and that they and/or we're somehow different from 'Mainstream Society', in how they and/or we think and are Destined to commit crime out of ^{some} inherent Criminal mechanism or Compulsion. As legalized state terrorists, the police work as a paramilitary faction to secure the 'Public' For CORPORATE systems and their ubiquitous

Commercial propaganda campaign by making sure "The People / US" aren't organizing Free Co-ops, Communes, Collectives, or any other form of SELF-RULE.

This insidious socio-violence is programmed into childrens' minds at the earliest stages of Critical Development in Elementary "Schools" that are actually, State Run SocioThink Clinics, where Kids are programmed to distrust and also discriminate each other, themselves and their "Communities". In these clinics, children are taught that they are inherently violent and are criminal, as are their peers... (who may be terrorists.)

Therefore, they're subjected to constant body searches, metal detectors, video surveillance, lock downs, police presence, interrogations, terrorist incident drills, and even guerrilla warfare training sessions! It's no wonder kids of today are committing mass murder in these Prison Introduction Programs the state calls "Schools".

In an Anarchist communal society, child would be encouraged to learn in natural environments while being gently guided to trust their own inherent intuitive intellect and they would have the experience of developing these natural human instincts in Free Interaction and the joyful recreation with their peers.

In light of this, it becomes painfully obvious why the state kidnaps children from their homes and puts them on buses to The State Designed SocialThink clinics. The "States" reasoning is ... "If these kids learn who they really are, if they become aware of their inherent collective power ... The STATE would be doomed!"

And this ... is why the Libertarian Anarchist Revolution must not fail! We all have an obligation and must organize Free Schools, Collectives, Communal Zones, Co-ops, Especially, Farm Co-ops, Communal Kitchens, Clothing distribution and much, much more! Let's Get To work!!!

RCAN

[Revolutionary Cells Action Network]

Proposal To ABCN - A shot Fired in the Revolution!

It's inevitable that western Capitalism will become increasingly Fascist and Totalitarian as the world population grows beyond the means of it's centralized industries to sustainably produce food and clothing for "The Masses" while Unemployment and destitution will reach holocaust levels in many western capitalist cities. In the 3rd world, and developing countries the Fascist Gap is reaching Genocidal Dimensions!

Authoritarian Communism and Socialist models only exploit the peoples' crisis for their own oligarchic power, Centralizing the production of domestic natural resources for state profit. So people remain in poverty while the environment is raped! This is unchallenged Global Piracy!

We, as true Anarchists, must organize

through workers unions, workers collectives, food co-ops, collective farms, media centers, free schools, newspapers and direct Revolutionary Action! For too long, Anarchism has been marginalized in the cool shadow of Eurocentric Punk Genre. Now it's time to raise the banner of Anarchism in the workplace, in the classrooms, in collectives, in co-ops everywhere!

The Government wants people to remain ignorant and thus, in fear, the STATE insensates filaments of self-doubt, self-hate, paranoia, sexual repression and social thinking while producing millions of psychologically damaged destroyed Human Beings! This is atrocious, inhumane, sadistic and we must not allow it to continue! This is why we must eliminate all forms of Government in society.

People aren't born sociopathic persons.
These are the affects of THE MACHINE...
Authoritarian Patrietical Government Rule.
A human being who is allowed to think
independently from birth without the
Authoritarian pressures and Fear based
Patrietical intimidation, naturally grows
into a dynamic, healthy, powerful,
Spontaneous, Confident and open-minded
adult. Able to get along with his or her
peers easily since he she has never
experienced enforced social intimidation
and isolation by Government Fear Camp-
aigns.

The Libertarian / Anarchist model isn't
some Esoteric Philosophy. It's actually
very simple and down to Earth... we
believe that we who work the earth for
substance should also govern those
societies built upon it with our own
collective labor. However, there are no
rulers, no imposed gods, only Commu-
nals of Consensus (Grass Roots Democracy).
Of course, there ^{would} be community secur-
ity organizations for the safety and
protection of all and would be acc-
ountable to the workers. Also, educa-
tion, science, and technology would be
organized by open committees and
groups who're accountable to the

Communals they serve. And as there must be leaders in any modern society, those leaders would lead by following the directives of their respective local consensus committees. Furthermore, no consensus group or committee would close it's doors to anyone! Space would be made for all who show up, every suggestion would be noted and every voice heard! There's been a lot of talk about Libertarian / Anarchist philosophy, psychology, social mores, collectives, etc... Now is the time to begin implementing all of those brilliant Revolutionary ideals! Thus, my proposal... **BEFORE IT'S TOO LATE!**

RCAN

(Revolutionary Cells Action Network)

A proposal to Anarchists everywhere for an International Revolutionary Anarchist Movement. RCAN would be the decentralized Militant Arm of ABCN and it's affiliates worldwide. RCAN Guerrillas would travel to various countries immediately set-up mobile communication camps equipped with field radios, generators, small copy and fax machines, Lap-Tops, SAT Phones, media equipment, etc...

Contacts with local labs would be established and secret meetings planned to talk about setting up workers unions,

Collectives, Communalis, Free Schools, etc.
It's inevitable that many RCAN Guerrillas
would run into life threatening situations in
the field. Especially, from Paramilitary
Factions and the local police. For this
reason, RCAN Headquarters would be in
constant 24 hour contact with Guerrillas
in the field for the purpose of immediate
response to possible emergencies.

In Countries like Tanzania, Zimbabwe,
Nigeria, Libya, Kenya, Ghana, Congo and
many other Countries in Asia and
South America. Guerrilla warfare would
be absolutely necessary because those
Brietal Regimes would immediately crush
any ^{workers} union or communal Anarchist
Organization and most dictatorships, especially,
in Africa have centralized ^{control} over
paramilitary control!

In the United States of America
and in Europe, with the exception of some
Eastern European Countries, guerrilla
tactics would not be necessary since unions
and the public are currently under a very
tenuous illusion of "Democracy". However,
if any ^{union} ~~union~~ ^{collaborators}, collaborators,
Family members or friends were attacked,
arrested or harassed by paramilitary police,
the RCAN would take immediate action!

These actions would be
against those

cops involved. In the event, which is inevitable,
if we're effective in our revolution that ADEN,

RCAN, etc., is outlawed by some state
or the Government, each organization should have
a working plan for moving the Revolution under-
ground. We must increase our activities world-
wide and it is vital to spread the organization
far and wide by creating a free Libertarian/
Anarchist Global village.

RCAN would work closely with other
Revolutionary Movements around the world.
Such as the indigenous ZAPPETISTA struggle
for autonomy worker commands. ZAPPETISTA
movement could be exported down to the
Caribbean Islands with RCAN
Greenillas. Everything for everyone.

Nothing for ourselves!

This proposal was inspired by a pamphlet
written By LORENZO KOM'DOA ERVIN, entitled
"MANIFESTO TO THE INTERNATIONAL MOVEMENT"
- Circa, July of 1979 -

Let me quote a line from
the last paragraph of this inspirational pamphlet:
"Let us always remember that by definition
Anarchists are Active Revolutionaries, even at
war against state machine, and if not,

"They are not anarchists"...

RESIST! OCCUPY!

FIGHT BACK!

SMASH THE STATE !!!

To the author, I am currently serving a
two year sentence in a High Security Control Unit
on charges of obstruction of justice and absconding
for the sixth consecutive time. Ha! I imagine That!
A Rounding Slave convicted of obstruction of
justice for freeing his captors and resisting the
paramilitary police. I will continue to resist the
STATE MACHINE while in prison and upon my day
of release (liberation), I am going underground
to begin working in Earnest Society with all of
the International Resistance/Anti-Fascist Move-
ments.

Hopefully, in collaboration
with ABCN

there is an old Chinese proverb,
"TALK DOESN'T COOK THE RICE."

RCAN / COPWATCH

EDENPRESS.COM

Technology for anarchist revolution – identification, spy wear / programs
Espionage & more.

AFTERTHOUGHT:

A first step in organizing RCAN would be an ABCN copwatch committee / or group responsible for going to cities with ABC chapters to give video presentations on copwatch & explain how it works & how to organize locally.

I believe the International Anarchist / Libertarian Revolution has to start in our own neighborhoods.

"Think globally, act locally" is a hippie slogan I always see on bumper stickers in my home town. I say, "Act locally, act globally!"

RCAN / COPWATCH Would Do Things Like:

1. Videotape / Disc local cops on the street.
2. Operate a website that's an open file on cop actions.
3. Keep private RCAN file on local cops.
4. Surveillance on off-duty cops' activities.
5. Surveillance on cops and their homes.
6. Interfere with cop raids / busts.
7. Guerilla actions for self-defense.
8. Collaborate with folks in projects & ghettos.

We need to organize autonomous RCAN / Copwatch groups in our towns and counties, help affinity groups get set up in the sticks & cities.

GANGSTA NATION

By MARSHAY JACKSON

This Country is obsessed with all gangsters. We love the "Godfather Movies, GodFella, Prizzi's Honor, Scarface and the Sopranos. We listen to Gangsta Rap Artists "glorify" Songs about Killing and robbing people, and we romanticize Al Capone and Jesse James. Maybe it's because the United States of Amerikkka is a NATION OF GANGSTERS, skimming money and every resource from other countries and running a vast Economic Pyramid Scheme. The U.S.A. traffics pharmaceuticals, pesticides and weapons, ... And also This Government runs PROTECTION RACKETS in Kuwait, Israel, and Qatar. And when some Regional Crime Boss (Like SADDAM HUSSEIN) gets out of line, the Government "WHACKS" him! Wake up and Act! Anarchism is a social structure without a centralized Government and harsh laws bent on imitation, psychologically and physically enforced prisons and a dictatorship of GANGSTERS.
