"In order for any organization or movement to be successful, it must not only "serve a valid and sincere response" but the leaders themselves." It must be disciplined have dignity and honor and be self-reliant and above all else, be dedicated to the Attainment of their cause and to the welfare of its members.

UKUBUYISA

"Is the awakening"
That positive unifying force that,
Instills and builds "strength of purpose
That eradicates all negative influences.

"UKUBUYSIA" is a ~~Bantu~~ Zulu word meaning "to bring back the spirit" it can also mean " to bring about change" and that is exactly what this organization and movement is all about

UKUBUYISA

A Unifying Force of Self- Determination and Self-love
Working for
The Redemption, Resurrection, and Upliftment
of our People.

And to Eradicate
The Political, Economic, and Social Oppression exploitation degradation of our people

As:
There can no peace without justice
There can be
No justice without strength

"'Strength"= Unity, the force of Ukubuyisa= "Freedom"

The shape of things to come

UKUBUYISA

This Organization will seek to achieve the impact possible measure of unity in order to:

1. Form the power base as the organized voice of Black people globally in every particular region-city-state-nation.

2. Develop from this "position of strength" the much needed economic enterprises that will not only create employment opportunities but by being owned directly by the people in the community will lower the cost and raise the standard of living for all."

As "UKUBUYISA" is the "unifying force of self determination and self-love." One of our man objectives is to have a representative scheme of organization that would beyond all doubt "Be the voice of Black's in America and the world over and the means through which our interests will be protected and promoted.

An organization that protects, defends, and promotes the interest of our people first and foremost. (See index #1-A)

One of the main requirements of "UKUBUYISA" is to direct membership by families as this organization will be a "national community made up of numerous black communities" worldwide and each working together for the benefit of each other...

Think About It...

An international organization with both national and local community based chapters. So structured through all elements of the Black populations and with an active membership so vast and diverse that those who have shown their contempt and total disregard for "black life and liberty" will learn to respect it!

As things stand now...

The overall picture we present to the world is that of a race of nobodies.

"Niggers-Savages"

A bunch of lowlifes whom others feel are only good for testing their bullets and batons upon and confining to their projects and prisons whom others feel are also just a bunch of welfare recipients on drug abusers unable to engage in any large in any large scale production of any of the necessities of life and must be kept in their place.

Where are the organizations that would "step up and stop." Our mothers, sistas, daughters, wives, grandmothers from being disrespected stop our men from being sexually assaulted or shot down like "rabid dogs" confined to prison's because they're no longer cute and adorable subjects to be used in politician's photoshoots?

What organization is there that can stop the genocidal policies that are being employed against the black woman, man, and child in America and the world over? 4

A lot of organizations have either "outlived their usefulness or their mode of operations in outdated and detrimental to the people, whom they are supposed to be helping.

They lack that drive and force to eradicate the age old problems and now can only be seen as part of the problem as their aim to "compromise." They do more harm than good, and divide more than unify which is the "main problem" when you ask you oppressor for help.

Two of the most important sources of our strength, which has always been in conflict are:

Our Churches (Elders)- Our Youth (Gangs)

The diversities and differences are apparent and in these days and times, our youth are basically "seen" as gangs and our churches are at times "seen" as part of the problem instead of a source of salvation.

"UKUBUYSIA" has formulated a plan to bring these two sources of strength together for 1- source represents "wisdom." We must learn to love each other as one and truly believe "I am because we are" and build upon that. Then we will no longer be seen as part of the problem but, a solution to the problem. (See index 1-B).

The beautiful part about this is- This is one of the first steps which enables us to achieve the largest possible measure of Unity and strength and control of our communities and the healing of our families.

The 2nd step would involve the establishment of our own institutions of learning and our own self-generating programs for the obtainment of financial resources.

Unless we begin to develop and expand upon there fist, FIRST a great survival movement will fail, just as many other noble efforts have failed because the rush neglected the necessary foundation.

Thus,

Re-education will be required for the two mandatory changes in attitude. One towards each other in terms of "Mutual Respect" and the other, a change in attitude about "efficiency," expertise in business management and financial responsibility and administration."

As it Stands Now...

We are stuck with these government funded organizations that will "beg" to send a "negro to college without first attempting to liberate that so-called "Negro's Mind" and teach him/her who they truly are and what is expected of them.

We have organizations calling for the Advancement of Colored People, but "who and what are they advancing to" other than becoming our own worst enemies blinded by rainbows and double-minded by trying to serve "two masters" the oppressor and the greed of self while hating their own selves and people.

"That is why UKUBUYISA is so important!"

If....
"Power Concedes Nothing Without Demand"
then, it stands to reason that;

The Demand
Must be "Equal" to or "Stronger than" that which you are struggling against in order to achieve true "freedom and liberty."

As,
"UKUBUYISA" is our power base
The foundation for intra black coalition building in which our community based alliances and network's puts us in that "position of strength" to give the people what they truly need so that, they will not "what" based in disillusions and ignoran ce.

We are not just the "Uncompromising Voice" of Black people, we are also, the body of a nation that refuses to be held back or down!

One mind= One Tribe
Strength= Unity. The force of UKUBUYISA = Freedom thus,

The Choice is Yours...

One Nation= UKUBUYISA or Disunity= Genocide

Part #1
DeAndre Taharka David Williams

I've learned from my grandfather, the late Dr. Chancellor Williams that:

"The Present day confound outlook of Black People in America and the world over is the result of centuries of Caucasian acculturation. A quite natural process whenever one people come under the economic, political, and social domination of another people."

Mind Control
Causes Corruption of Your Thought and Destruction of your soul.

This process through at times subtly applied renders one incapable of having any type of Original thoughts on way of life other than those okayed by the oppressor.

The end result is that, such people experience a mental death and slavery then become savages in the pursuit of an illusionary state of happiness.

Look around you!

Our communities are infested with diseases and poverty, drugs and crime are rampart and out of control. The black family has become distant unwanted relatives. No longer bound by flesh, spirit, and love but are now held together through oppression, exploitation, degradation, dissatisfaction, ignorance and self-hate. 6

Our so called "leaders" are nothing more than "publicity seekers" who will bleed you and deceive you into singing songs. All for the enjoyment of the oppressors... We Shall overcome on day! They have you focus on that "one day" in the distant future instead of the "here and now."

This is why "UKUBUYISA" is so important and vital to the continuation of our people for the sprit of self-determination and love must be brought back and utilized in order to eradicate the negative influences that are infesting our people and the genocidal policies that are subtly implemented against us.

"You've heard its been said many times over that."

"We are the Original people pf this Planet Earth"
Yes, this is an actual fact.

But just knowing it without applying it adds up to nothing. For the majority of us have allowed ourselves to become so commercially defective and other than our own true selves by adopting and embracing the unnatural habitudes of others whose sole aim is not just to control, but to utterly destroy.

One only has to look around or within yourself to see just how detrimental and reverse the ways and actions and others are to us as to people, race, and nation.

We as a people have begged, prayed, marched and at times ran. We are people who have been systemically lynched, raped and murdered and deprived of freedom, justice, and equality while being programmed throughout our growth and development to hate and kill our own kind while loving others.

It's here that we are a people, race, and nation take a collective stand as well as command and control of our lives!!

No One Can for us but us!

Therefore, there is no mystery as to what the problem is on in addressing the real problem and arriving at a solution.

I've been taught that: "Mysteries are hidden keys." Just as I live learned that: "Knowledge is equivalent to Power," the ability to define a phenomenon and to make it act in a desired manner.

Surely you've heard: "What You don't know can't hurt you?" and if you believe that, you've been very lucky so far, for what you don't know can and kill you or lead you into a state of mental death and slavery.

Example: If you took some poison and because you know not what it was , what would happen? Either one or two things you would become very sick or you would die.

Now, if this same person had knowledge and understood the workings of this poison and made it act in a desired manner either alone or by way of an antidote this poison would be neutralized of its negative properties and applied correctly to bring about a cure it is the proper application of knowledge, wisdom, and understanding that makes the difference between life and death.

Our cure is UKUBUYISA!

Therefore, One of our 1st task in addressing and arriving at a solution is the liberation of our minds from the control and servile acquiescence of the oppressor and actuating towards "identifying and realizing what is beneficial to us and what is not. For ignorance is not bliss or ignorance but sin.

And we've all heard that "The Wages of Sin are Death!"

Most of us, have had or are still having problems with knowing that difference between right and wrong the truth and what is usually accepted as fact being responsible rather than being ill-responsible and a lot of us are caught between two extremes:

Black Consciousness vs. Negro Excuses

In the words of the late Steve Biko: The concept of Black Consciousness is that it is necessary to first effectuate mental emancipation as a precondition to political emancipation and to commit yourself firmly to you Black Cultural Heritage imposed the one that is being forced upon you.

A lot of us have a problem with this concept the reason why is because we as a people have for so long allowed others to think for us and dictate what our values and principles will be as well as who and want we will be.

This is Dangerous!

I, for one, dislike being refused to as an African-American male or an Afro-American or a Negro."

I'm a Black Man

And I totally refuse to be a willing on unwilling participant in devaluing mine or my people's own self worth cultural identity and heritage.

One of the 1st steps in the making of a slave is to first implant fear and then destroy his original way of thinking, destroying that person's capacity to think or to do for themselves. This leads them on to accept any adverse condition placed upon them because they have forgotten who they truly are.

Our ancestors were the original inhabitants of every square inch of this planet Earth. Thus, why should I/we limit ourselves to a geographical location which now bears the name of an invader (Scipio Africanus) unless it is to rewind us that we are owned?

The origin of the word "Negro" is derived from the Greek word "Nekros" which means corpse- a dead body and also meant ancient. The Greek word for black is "Melas" equivalent to the English word "Melanin" which refers to the dark (black) pigment in the body (skin-hair). Yet the Greek's referred to us as Ethiopians why? Because of our blackness.

Whether we lived in what is now called Africa, Asia, Europe, Americas, etc. We always called ourselves and identified with our blackness though we used different names due to different languages.

It wasn't until 146 B.C. that the Romans annexed Carthage's territory giving it the name of Africa. After Scipio Africanus who defeated Hannibal at the battle of Lama, In 46 B.C they then annexed the kingdom of Numidia calling it Nova Africa. New Africa and that is how Carthage, Numidia, and Mauretaria became to be known as Africa with the rest of the land and people of that continent being called "Africans" thereafter.

Thus, one can now see why others which to refer to us as African Americans, Afro-Americans, and Negro as when you name things, you have control over nature it.

This why education is so important and why one must: DEFINE YOUR NATIVE AND MASTER IT THROUGH EDUCATION FOR IT IS MOST CLEAR TO THE MOST CLOUDIEST MIND IF YOU ARE NOT YOU, WHO ARE YOU?

(Nobody)

Is it any wonder why they don't want you to be who you truly are.

Your enemy wants you to think of yourself as a nigger, a bitch, a hoe, a dog, etc. Anything and Everything other than what you truly are "Black Woman and Black Men."

You see, when you call each other "Yo-Dog- Yo-Son! Yo Bitch etc. Self consciously, you tend to mimic the characteristics of a dog- you start to act like someone else's son or adolescent instead of an adult and surely you would refer to your own mother as a bitch. So why do it to you own sistas who you are supposed to love, care for, and protect?

Words are powerful more so than "sticks and stones" as word association and the psychological effects which breads obnoxious and fatuous attitudes and behavior can only lead to self-destruction.

What is an Afro-American? What is an African-American? Why are there no European Americans, Caucasian Americans, or Blond Americans?
They call themselves Americans because they are from different countries. They came together and stole and took over this land making it theirs and their solidarity is their whiteness.

Therefore, why are you defined by a hairstyle (Afro) or by an invader's name (Africanus/Africa/Africans) or a State of decay (Negro/Corpse) when that is not who are you are? Only a dog or any other pet accepts the name given to him by his master.

This is why so many of us are in a state of conflict within ourselves and why it is so important that we liberate our minds and take the necessary steps to think and do for ourselves.

We must also eradicate those institutions and policies that hold us back and down for it is said: Divide and rule subdivide and rule more powerfully fragment and rule absolutely. Our People have become so undivided and undecided that it's a shame!

We send our children to schools to learn but, what are they learning? Also, is what they are being taught in any way beneficial to their overall well being?

They are indoctrinated into the American way of life taught the ability to memorize phases and concepts and other required data, most of which instills in them an inferiority complex and a desire to be other than whom and what they are.

Thus, what these schools are really teaching them is to become dissatisfied with learning so they won't have the skills to compete and succeed so they cannot bring about any type of positive changes. O they become androids and so-called Negroes or violent, undisciplined, apolitical, fratricidal, maniacs as not only have they been subjected to such insidious indoctrinational processes in the most important years of their of life by Outsiders but they also succumb to the self-hate and negative influences bred into them by their parents, who themselves were victims of the American Dream.

George Jackson said: I know how that the most damaging thing a people in a colonial situation can do is to allow their children to attend any educational (indoctrination) facility that has been organized and controlled by the dominant enemy culture.

The Solution..

Either we change this so-called educational system in which our children are systematically indoctrinated into at every stage of their growth and development with negative principles and unproductive values, foreign, and detrimental to our own kind.

OR

WE BUILD OUR OWN LEARNING CENTER'S

That's RIGHT!- We build our own learning centers and instill in our children a true sense of racial pride and self worth as well as the proper knowledge and a thorough understanding of our own.

HISTORY-HERITAGE AND CULTURE

With the necessary skills to compete and succeed on a global scale where our children are taught not only how to think and learn and to live a positive way of life but most importantly: to love and how to be secure within their Blackness so that they will break the chains of centuries and centuries of oppression.

THIS IS "UKUBUYISA"

In applying this solution, we are not only showing our children that we came about them, but most importantly:

WE ARE PROVING OUR LOVE FOR THEM AND FOR EACH OTHER

This in turn, creates a change in outlook and adds a new inspiration in our children and ourselves.

Just knowing that their parents are involved in and actively engaged in a part of a movement will instill in them a new sense of worth commitment and solidarity.

It is a known fact:

Our children reflect what is projected onto them

If no one takes the time to show them the Right way and how to do things properly in life, then they will be easily led in the wrong direction.

This is why they are taught in schools

History
That Black people were slaves on were living in the jungles of Africa as savages that President Lincoln is the savior of Black folks as he freed the slaves about the different cultures of White people.

Science
Discoveries by Europeans on Asians
Nothing at all by Blacks

Taught to pledge their allegiance to a flag that represents oppression, exploitation, and degradation to all those who are not white European/ White American..

Then the Media move or less portrays the same thing yet what gets to me is some of my own people will point at me and claim what I am speaking on or teaching is racism and they are right but I am not the racist for if the American way was really all about freedom, justice and equality.

Can Somebody explain to me why?

1. No other race of people are subjected to the Voting Rights Act signed by President Lyndon Johnson in 1965?
2. Terrorist Organizations such as the Ku Klux Klan, skinheads, etc. are not included in President Bush's war on terrorism?
3. America's Educational Dictionaries define black as harmful, hostile, disgraceful, unpleasant, dirty, while white is described as decent, honorable, and pure?
4. Medical institutions are still conducting research on black people which is harmful to their health and which was previously conducted on dogs and lab mice and rats?
5. A black man can be shot over 30 times by the police and no one is convicted of this atrocity?
6. A black woman can be murdered by the police using a grenade and again no one is convicted?
7. The persons are filled with 90% black people, which are so conviently located in poor white areas I wonder why?

Something is Wrong If this is the land of freedom, justice and equality!

I know one thing, this not stop! It must stop now!

Only when some such organizational program for unity for opportunities on a social, economic, and political scale are set forth by us for us will such ills and destruction disappear from our lives.

Is it any next to wonder that:

The Negro wants and needs something to be proud of. The Negro Youth and Moderate must be made to understand that if they succumb to revolutionary teachings, they will be Dead Revolutionaries. It is now better to be a sports hero, a well paid professional athlete, entertainer, a regular paid white or blue collar worker, a peaceful human being with a family or a person at least has been accepted than a Negro who had gotten even with the Establishment by burning it down, but who, along with this, burned down his own home and gained for him, and all his people, the hated and distrust for years to come.

Thus, the fear minded individual will find themselves in a cycle in which, they cannot escape from because of the deep conflict within themselves and they become neutralized, refusing and unable to do anything constructive for their people for fear of becoming a Dead Revolutionary or a locked up one.

Then, there are those who become "enemies of the state" as their rebellion takes the form of being tired of being a victim.

One can rebel against that which he knows is wrong yet the victimization of self can because so strong that if one is not careful, such a person will only think of their our own hurts and pains and in turn, inflict it back on those around them family, friends, etc. because they have become too weak to fight the real enemy.

That is why so-called black on black crimes are on the rise which in all reality are really Negro excuses precipitated by white lies which lead to genocide.

Those who rebel and become an enemy of the State does so because they are tired of being lied to as well as being victims. Thus, they set about to secure a foundation to build upon returning to their originality where they learn to discern what is truth from falsehood, and regain a profound sense of purpose in having become free and set about to free others.

Yet, these same people are usually portrayed as troublemakers; hence, enemies of the state and its ironic that they are treated worse than the real troublemakers and evil doers even by their own people.

Our Youths who are tomorrow's leaders see all this and without the proper understanding are caught between two extremes: feeling on way and thinking another and becoming unstable in all their ways than they are portrayed as:

Violent, Undisciplined, Apolitical, Fratricidal, Maniacs

Some just go along and betray this type of behavior as it is easier to just go along and fit in than to uphold positive and constructive principles and behavior that causes one to stand out.

As long as you just go along and imitate the ways of others and allow others to think for you and define what will be a servant or slave.

Look at the different countries of the world and ask yourself "Why is Africa in the shape that it is in if? It's simply because the governments are controlled by outside forces which sets the standards of what will be and how.

As long as we allow the atrocities to continue against us, as long as we are dependant upon others for the basic essentials of life, such as food, clothing, shelter, or definition, you are a slave and as long as this country refuses to outlaw slavery in any form or you, the people refuse to break the chains of slavery, you, we, all, will be considered slaves and treated as servants and that slave mentality will be carried over to your children and their children until, that which was original becomes artificial and that which became artificial has ceased to exist, like the Sumer Legend:

What became of the black people of Sumer the traveler asked the old man for ancient records show that the people of Sumer were black. What happened to them? Ah the Old man signed they lost their history, so they died.

And this is exactly what is taking place all over the world.

Our people here in America are so caught up in trying to live the "American Dream" that they don't want to wake up or stand up and realize what the late Dr. Martin Luther King Jr. proclaimed:

My American Dream has now become a nightmare.

Yes, it's said but it is true. We live within a nightmare

We call each other dogs, bitches, and niggers as if these are truly terms of endearment. The youth rebel against the elders and the elders now fear the youth. Males feel that they can't be men so instead they try to be women and the women not satisfied with being women now want to be men.

Our youths are either locked up, on drugs, murdering each other or suffering the ill-effects of some psychological problems inherited from a society gone mad.

Marvin Gaye sang:
"What's Going On?- What's Really Cares?

This is why "UKUBUYISA" is so important.

The oppressor doesn't want us to love each other, to have unity, or to be strong. They want us to fear and love them while we hate and kill ourselves

This is Wrong!
Look around you and all over the globe. If we not take control of our lives, we will be like the people of Sumer. "No more"

There are no constructive programs out here for our youth on the black family in general?

Solution

We must create our own
A new outlook program o a new kind of educational system, and training when needed and above all else, enterprises. As a job, creating program. community, enforcement, health care, etc.

In order to bring this about, not only must there be a collective effort but we must include a carefully developed plan for tapping and drawing upon the unused and rejected sources of our strength.

One such source are our people held as prisoners and former prisoners for along the many problems which we ourselves must address and solve is crime. The criminalization of ourselves by others and the crimes we connect against ourselves.

There must be a program of action on sheer self-defense for both crime and the fear of safety it breeds will begin to disappear from our communities. Only when such programs for unity that is put forth by us will we solve these problems

Continued Under Index # C

Another source of strength that has become greatly underdeveloped and misused are our churches.

What other institution is already capable of bringing a community together and utilizing the collective efforts and financial resources of such membership to being about a collective change than our churches.

There are an abundance of Black churches in our communities with such a diversity of its memberships ranging from the young to the old. All with a special skill in something that can be taught and utilized for the benefit of us all from business enterprises, doctors, nurses, and school teachers, and housewives; venders to handymen, even to those that are idling away in retirement.

One of the aims of "UKUBUYISA" is to form a Coalition of the Churches and other religious institutions and all of their members for it is here, in which a very important power source derives, enabling us to launch our programs of self-determination and self-love.

(See Index # D)

That our people are in prisons, jails, work camps, and on probation and parole and locked up in Juvenile detention centers in such alarming rates, gives one cause to wonder... "What Exactly is Going on?

It is clear to the cloudiest mind that "what is going on" is a predetermined and deliberate extermination of a people which for those of you "who don't know" is genocide!" and the people it is being applied against is you!

It is said:
Tyranny never had a greater ally than the ability to make the slave forget that he is oppressed.

Thus, it is clear that our present day state of affairs is the result of too much compromising and allowing ourselves to be rocked to sleep and kept in a "trance like state" whereas, we just go along like sheep to slaughter instead of waking up and saying "No more!"

We have been shaped and molded since birth to be dissatisfied with being black and to love those who oppress you better than your own while accepting with indifference and ignorance the oppressor's tyranny.

This Is Genocide!

It is clear that, We as a people are victims of the 1st rule:

That people can be made to believe any lie, because they don't want to believe it is true or because they are afraid, that it is true.

Which is why it is so important to know exactly what is going on and why?

A lot of people heads are full of knowledge, facts, and beliefs, and most of it all is false. Yet they think its all true without even checking or looking beyond the reality of things or asking how or why. Then these same people are used against you ti make you conform to their way of thinking.

Example: The way foundation of our existence is put in question by the oppressor through their white orientated books, television shows, and educational facilities.

Thus, one learns to become dissatisfied at a very young age, as one does not have the proper skills on wisdom to combat this process of deceit, especially when it is headed down by ones own parents.

"Self-Hate sets in and rather than being or feeling useless, one year's to identify with that which seems to be right and what is usually white as it provides them with a sense of power and authority.

The person who thinks this way is one of the most dangerous and in need of immediate help.

There's also some who grew up being afraid and just go alone and waiting to rebel against what is being done to them but they don't know how and are afraid as the government has made clear.

"UKUBUYISA"

Is the missing link which provides the drive and force that has been lacking in our efforts to provide a solution to the problem.

Bob Marley sang:

"We got a life of our own so don't let them tell ya whatcha thinking is not right!

Even the late Dr. Martin Luther King Jr. said:

"If a man doesn't have anything worth dying for that man is not fit to live!"

If he realized that his American Dream has now become nightmare!

So you can imagine what it is now, 30 years later.

Thus, the question is asked:

ARE YOU READY TO BE?

In the Jungle

There are two types of animals predators and prey the hunter and the hunted. At times, the roles become interchangeable, which the predator becomes the prey and the prey becomes the Predator.

Usually, those animals considered prey live together in what is termed "a herd." At times the weakest and oldest animals in the head are bought down and killed by predators. Even those considered the strongest and in their prime of their life become victims for failing to be aware of their surroundings for things ain't always what they seem to be and are rarely what they are.

In the jungle, if one has not learned to distinguish between what is and what is not the mistakes can be fatal! For what may seems to be the most harmless and insignificant thing can turn out to be the most dangerous and the deadliest.

This Hunter sets out to stalk and kill prey thinking that he has all the advantages the prey being the hunted, evades and runs and uses every trick it has learned to stay alive. For you see, in this game of death there are no rules! Only the battle to survive by any means necessary. Thus, though the hunter chases the prey it is the prey that leads him on until the situation or circumstances arises that the prey has set his own trap and turns and fights back whereas the hunter become the hunted and the prey becomes the predator for the law of the jungle is simple... "Kill or be killed," Rules.. There are no rules!, "The 1st law of nature is self-preservation."

We live in today, what is referred to as the "Concrete Jungle" and in any jungle, there are predators and prey. A lot of us take on the characteristics of either one or other as well as the Struggle to Survive.

Those considered "predators" stalk and kill not only the young and the ole but also, the weak and the strong being blinded by rage and self-hate, they have lost their humanity and rely solely on their animalistic instincts and brute strength until they are killed or put away.

Those considered "prey" are easily led in the wrong direction becoming victims of their own fears, on the fear of others, living within the guidelines and rules made by others, which can only make one living within those guidelines and rules more helpless, especially when they are following those with that Tarzan-like mentality.

This is where the problem is- Wake Up

You are neither predator nor prey.

A man masters all negatively, mentally and nullifies all matter physically. Man being the Title One upholds as well as the stage of growth and completion and Man being that God given right to lead and do what is right.

This is what separates man from the lower-caste animals. For everything on the planet is subjected to man's will (mind).

I once heard a man say: Once I was a lamb, playing on a green field, then, the wolves came. Now, I am a eagle. And I fly in an different universe.

When one comes to the realization that "all life fights to survive and struggles to attain new heights," we see that what we live in today may be referred to as a jungle, but that doesn't mean we can not change or rise above it!

We are not: Predator, Prey, violent, undisciplined, apolitical, fratricidal, maniacs, or savages in the pursuit of an illusionary state of happiness.

Neither will we be: androids, cowards, or slaves, used and abused by anyone for whatever reasons or purpose nor should we allow others to define our reality for us.

A "Jungle" is a land densely covered with trees and vines with all types of animals and pitfalls which can also be equivalent to the Savage Garden contained in the minds of those who wish to remain dumb, deaf, and blind.

A jungle can also be a situation in which, people struggle fiercely to survive and overcome.

Most of us live in what is referred to as a "concrete jungle" or A dog eat dog world where our own families have become distant and unwanted relatives no longer bound by flesh and blood or the sprit of love but, packed and bound together by oppression, dissatisfaction, and self-hate.

This has to stop! And it must stop ~~must~~ now!

All of us, no matter what their means must make an investment in their freedom.

Remember this: Turning you backs on your own kind and the innocent in need of help makes you the oppressor's accomplice.

If the 1st law of nature is self-preservation then you, we, and I must step toward to make it right when it's wrong in the name of the innocent, the defenseless, those, mixed-up and confused and oppressed.

For There is no me without you!

United we stand, Divided we will never be ONE HEART, ONE MIND, ONE MISSION

JUNGLE LORD'S

(UKUBUYISA)

Jungle Lord's
[Brother's-United for a Common Cause]

1. What is a jungle lord?
    a. A jungle lord is a no nonsense, conscious, individual who travels swift, silent,-and deadly.
2. What does it mean by swift, silent, and deadly?
    a. This alludes to a load's (Lord's) qualities of which he upholds at all times
3. Does this have anything to do with being a no nonsense, conscious individual?
    a. Yes! Indeed so.
4. Explain why is on called a Jungle Lord?
    a. It's not just what one is called but a title that has been earned, obtained, maintained, throughout adversity.
5. Can you clarify this?
    a. As you have been made aware we live in a very hostile environment which is equivalent to a jungle and as in any jungle, you have not only predators and prey but also all types of pitfalls and shakes (SNARES) that can either "Hold you back or kill you!"
    b. Thus, One who knows and understands the ways of the jungle as well as of self and kind and applies this wisdom in a constructive manner sets himself apart from those who are held captive in a triple state of darkness and fulfills his duty as a teacher, guide, and protector helping those entrapped become free and one the right path, so that they in turn can help others. Thus, one obtains and maintains the title of "lord" by his continuous struggle to do what is right by mastering all within his circumstance (Circumference) Hence "Jungle lord."

6. What is a Jungle Lord's Duty?
    a. The Protection Of Self and Kind
7. Who are self and kind?
    a. All those who fight against oppression in any force and fashion and who are for unity and advancement.
8. What happens if a lord fails to fulfill his duties?
    a. All Jungle Lords know that they will accept death before dishonor and that there is no dishonor in failure. The dishonor is the refusal to try or to refuse to continue to struggle to right what is wrong.
9. Can Anyone be Jungle Lord?
    a. No! A Jungle Lord is not something you can claim to be or a title earned lightly Those eligible to join our ranks are tried and tested and tested and tried. For it is said many are called but few are chosen. Thus, the question to be asked and answered is: ARE YOU READY TO BE?

4- Rules A Jungle Lord Must Know and Understand

1ST Rule: That people can be made to believe any lie. Either because they want to believe that it is true or because they are afraid that it is true.

Given people Motivation almost anyone will believe almost anything and being afraid something is true is accepting the possibility accepting the possibility is the 1st step in believing. Thus, a Jungle Lord must always be on guard and be secure in his own knowledge and be able to receive truth from falsehood and know that he is right.

Therefore, becoming one confident is one of the idiosyncrasies of a fool while humbleness is the ability of a wiseman for even the master is felled by the punch he does not see.

The 4 rules is taken from the concept laid down by Terry good kind in his Sword of Truth Series, though the understanding set forth is my own.

What a Jungle Lord Must do?

1). A Jungle Lord must be a fearless warrior:

This not to say that he must not know fear far from it to conquer fear you must realize that these is no escape from what you dread. You must absorb it live with it, taste it, understand it, overcome it and use it to your benefit.

2). A Jungle Lord must put all his faith in his own resources:

If one does not believe in himself wholeheartedly then no one else will. This is why one is tried and tested upon his square. This is where one learns to stand alone and depend on self and face down and conquer whatever adversity as a fearless warrior.

3). A Jungle Lord must conquer the pride of his personality and kneel in front of the higher self and higher values:

For just as a good leader must also be a good servant. Only one who has mastered self can help others for we live by the motto: "All for one and one for all" and we do what we do for the common good.

4). A Jungle lord must not subject himself to vices:

Dependencies are equivalent to slavery and a lord is a slave to no one or anything! Vices are also a means by which the enemy can control you and make you other than yourself and also an enemy to your own kind.

5). A Jungle Lord must raise all problems to the light and conquer them. In other words, if there are any problems- "Spit it out" and let them be known and heard and decided upon and yes, you are your brother's keeper for where one is weak, two, together, are strong and you've heard its been said "What you may think has been hid by the darkness will surely come to light!" Thus, it is better to keep things right and exact then to be

despised, conquered, and defeated because of lies or because of something you wasn't supposed to or didn't do right.

6). A Jungle Lord must appreciate everything he meets:

Life is full of controversies and there will be times when nothing seems to go your way where everything you do seems to turn out wrong. Life is not only full of challenges but is in itself a challenge and though what may seem to be can be changed to what is or what will be and made to work for you.

When you learn that everything in life is not going to go your way and that stumbling blocks are not necessarily put in your path to make you fail but are these for you climb upon as stepping stones for you to overcome and reach the top!

Thus, a Jungle lord learns to appreciate everything he meets for in the diversity and adversity of life; he is tried and tested and tested and tried in everything he does, gaining the necessary knowledge, wisdom, and understanding to be secure within the nine virtues of a Jungle lord and proclaim:

"WARRIOR I AM"

"In any battle, I emerge triumphant!!"

Nine Virtues of a Jungle Lord

Affinty-Worth	
Fearlessness	Unity
Humility	Generosity
Magnetism-Continuous Labor	Selflessness
Love- Joy	Harmlessness

A Jungle Lord carries himself swift, silent, and deadly as he knows he must be not only aware of his surroundings but also ready and properly prepared to deal with anything that comes his way.

Though a Jungle lord must fight on without quarter, he must not allow himself to become what he is fighting. The enemy fights to kill and enslave a Jungle lord fights for life and freedom and for that which is right thus, these 9 virtues are always kept in a lord's heart and mind. 22

For those who we protect and those who wish to join our ranks must be confident that we will stand for what is right so that they will feel secure in joining our ranks so they will knew that there is a place for them with us and so that they will be heartened by knowing that they will not have to fight alone if they wish to fight for freedom or against any wrong.

We must not only be a power force but a right force that they will trust in trust in enough to believe in and join and give their life for. Therefore, everyone of you [Jungle Lord] are an example of what they look up and respect and wish to be!

Those who are eligible and have earned the right to join our ranks most first be tired and tested and tested mentally, physically for no one is given this title by right it must be earned!

Remember this: The law of the Jungle is to kill or be killed! Know that smiling faces, show no trances of the evil that lurks within, each candidate must show and prove not only that he is qualified both mentally and physically to join our ranks but most importantly that he is loyal to our cause "UKUBUYISA" and continues to be so.

You've heard it been said: By any mean necessary!

Thus, never assume that it won't be applied against you by others for the 1st law of nature is self-preservation and its been proven every brother ain't a brother.

That is why all titles, positions, and ranks must be earned and are never given on granted rightly. It is stated that: A lord's duty is the protection of self and kind.

This is why: One is tried and tested and tested and tried.

For it through this process of refinement that one is tested both mentally and physically and tried to determine what is in one's heart and mind and on what one will and will not do. 23

As it is clear: What you don't know can kill you!"

Thus, in order for a lord to fulfill his duty as to protection of self and kind, he must be made aware of and know beyond all doubt:

1. Who-he truly is.
2. What- he is to protect against and why.
3. How- not to fail in his duty or dishonor himself.

Who he truly is?

You've heard it's been said: "The Black man is the Original Man."

This is truly truth and fact and it might be deeply rooted in one's heart and mind which will be clearly manifested in one's ways and actions.

You can not claim to be unless you maintain what you truly are and in order for one to accomplish this, one must fully understand what a black man is and what he does.

~~Black or Blackness~~ Black or blackness

Is not just a color but an original state of mind, it also personifies vitality, growth, and life: a supreme state that which is first.

Man is not just an adult male but one who through his growth and development has obtained and maintained that level of maturity and through trial and error has overcome the negative influences which tend destroy so many of our youth before they can attain this level of completion within themselves.

~~Original~~ ORIGINAL

The fist, the origin of that from which all others are deceived derived from not artificial

FIRST

Thus, a black man is one who is secure within his self able to stand alone for what he believes in and isn't a follower of fads and lifestyles that only lead to artificalism and destruction.

A lot of our youth are caught up in rebelling and trying to do their own thing rebels with a cause caught up in psycho-social lies and holocaustic half-truths which are specifically designed to perpetuate the progression of genocidal crimes against our own kind.

A black man loves his people and he loves himself and being a man. He separates himself from the idiosyncrasies of a fool by being respectfully and intelligent and mature. A man doesn't wear his pants off his ass and go around with his foot wear untied, or walk in a slouch-like manner. Patterns reflect the person's mind and project's their stupidity and this is because they have not learned or been taught who they really are because their minds have been ensnared by the illicit practices of psychological warfare.

This is why it is so important to know and understood who you really are for if you are not you then you are nobody who can be used and abused as means to your own destruction.

Knowing who you are gives you command of your life for a man will always strive to do better and have control of his life.

What a Black man does?

A black man maintains and projects a positive state of existence at all times.

A black man is responsible. He loves and protects his family and knows that family is the foundation of his existence. A black man masters all negatively and nullifies all matter. Just as man's intelligence is what sets him apart from lower animals, his ability to think and reason is what sets him apart from fools and it is that God given right and power that enables him to be the best that he can be freeing his people from the illusionary state of happiness of which they have been lulled by centuries of trickery and deceit.

This is why one must travel swift (in an intelligent manner), silent (respectful and humble), and deadly (aware and responsible) at all times for in darkness (ignorance) there is death!

The seen and unseen dangers of the jungle can cause one to become lost and to forget one's our purpose in life causing him to become other than his true self (a so-called negro) rather than what he truly is.

A black man: the original man, the Supreme Being, universal builder and Jungle lord.

What he is to Protect and why?

There are those who will seek to apply the doctrine of divide and conquer against us. This is why one must be on point at all times and learn to recognize what is from what is not? There are those all around you who are masters of illusion, causing confusion, and replacing what is original with artificiality. As well as, implementing fear, mistrust, and self doubt. This is all a pact of their indoctrination process in which they maintain control.

They will go as far as to use your own children, mother, father, sista, brother or lover against you to get you to conform, which is why obtaining knowledge and knowing how to think for one's own self is important for:

Ignorance is not innocence but sin and the wages of sin are death, which is what one must protect against.

Also, protecting oneself from becoming either a pawn or a tool of others and which is why a man learns to stand alone and to be secure within himself s one of the first steps leading to the destruction of self is to become dissatisfied and losing sight of who he is, which leads to a person either giving up or being dependent on others, which allows his foundation to become weak, wicked, and diseased.

This path of dissatisfaction can lead to self-destruction but it can also lead to salvation

and redemption if one is strong enough to break the chains and if we truly are ours brothers keeper and keep them to the right path by providing the support, guidance, and love that they need to make it through their struggle, they will be able to truly help others as their own experience has given them the proper knowledge, wisdom, and understanding to identify the problem(s) and (being) forth a solution as well as a unified front. bring

We must protect against losing our cultural heritage and forgetting who we truly are and what our struggle is all about.

As stated: Every brother ain't a brother some have allowed their minds to become so twisted in either their fear or love of the oppressor that they cannot be redeemed and will only be a so-called negro coward and traitor to himself and his own kind. This is the path that the oppressor wants you to stumble down, wants your family to stumble down, and this path of destruction is what we are to protect against and why.

This is why one is tested and tried for his weakness will be our fault and if undetected and allowed to grow and will be the source of our destruction.

Thus, we eradicate any and all weaknesses and he is a made strong where he was weak. Then, he is tried and tested upon this new found sense of strength until he knows he is the master of his fate and the captain of his soul. As stated in the poem "Invictus":

Black as the night that covers me dark as the pit from pole to pole. I thank, whatever gods there be for my unconquerable soul in the fell clutch of circumstance, I have not flinched or cried aloud in the bludgeoning of chance my head is bloody but unbowed! It matters not, how straight the gate, how changed with punishment the scroll. I am the master of my fate, the Captain of my soul.

Thus, when the question is asked: What is Blacker than the night? He knows to answer

The Only correct answer is..

Yes!

We must all relearn all these..

Our aim

Is to emancipate you from dependencies and bring dependent upon others to make you self-reliant in the highest degree, so that if it comes to it you will be able to stand alone under all circumstances and cope with all conditions thus, "Only one who is strongly poised can help the weak.

Thus, We walk that walk swift, silent, and deadly, and whenever we travel be there prey or predator they know to either "look down" or look hard for like that black cat- We rule the jungle but instead of a savage beast stalking on all fours, we walk upright and carry ourselves at all times in an intelligent, respectful, and responsible manner.

We fight that fight against any and all oppressor's knowing that the 1st law of nature is self- preservation and the law of the jungle is to kill or be killed. We are not androids, slaves or servants to be used on abused by anyone!

We live our life as free men [to quote Claude McCray]

If we must die-then let us nobly die so that our precious blood may not be shed in vain then even the Monster's we defy shall be constrained to honor us the dead.

Even, Martin Luther King Jr. – A Man of Peace and Nonviolence Said:

"If a man doesn't have anything worth dying for that man is not fit to live!"

Thus, the question is asked...Are you ready to be?

Redemption- Resurrection- And The Holy Way

Introduction

I truly think that a lot of the Churches today do not seem to understand the prophecies found in the bible. They all seem to fit the Prophecy spoken of in:

Isayah- 56:10-12

10- Your watchmen are blind they are all ignorant. They are all dumb dogs, which cannot back any warning sleeping lying down, loving to slumber.

11- Yes, they are greedy dogs insatiable of appetite, which never have enough. They are also shepherds who cannot understand. They all look to their own way, each one for his own gain from every quarter

12- They say: come, we will bring wine and we will fill ourselves with strong drink and tomorrow will be like today or more much more abundant.

Sometimes, I (set) sit and ask myself "What is Going on if the watchmen are blind and ignorant and the shepherds cannot understand and feed themselves only?"

What will become of the flock?

They will be scattered led into destruction and destroyed!

REBELS, FELLOW COMRADES AND ENEMIES OF THE STATE

JUNGLE LORDS

How to protect self and kind

One is taught not only the art of war and the ways of the jungle. In order to enable to not only mentally and physically meet and defeat any attack upon self and kind but to know how to live in peace amongst ourselves.

One also protects self and kind by not putting oneself in any type of position or circumstance of which one can be taken advantage of. Thus, it is very important to understand the law of cause and effect and of knowing, how to be rather than being a follower and just going along.

Important to remember is:

Dependency is Equivalent to Slavery

The Scripture Reads: Know ye not that whom ye yield yourselves servants to obey his servants ye are to whom ye obey? (Roman 6:16)

This is a very important scripture for it reveals that you, yourself, are the determining factor in regards to what or whom you will be dependant upon or enslaved by.

There are many forms of dependency and if you allow yourself to be brought under the power and control of any, you yourself are no longer in control, but in a triple state of darkness (dumb, deaf, and blind).

An android who is controlled by others.

That is why it is said: Envy thou not the oppressor and choose none on his ways (Psalm 34:19)

There are many of us who claim we got our own thang but how can that be when we fea and love the oppressor and hate our kid and also follow a way of life that leads us on to total destruction. Our own kind

A lot of us are so caught up in the latest styles, different fads, $200 dollar sneakers, expensive jewelry etc. trying to be what they ain't and dissatisfied with who they are. They may have the latest designer fashions yet, won't even know the names of five black historians or countries. They will go to college and concern themselves with Greek this and that failing to realize none of these designers have contributed in any way to our health and well being and just like the Greeks who stole our culture everyone makes a profit but us.

Yet, there are those that want to be like them so much, both mentally and physically that they are like the moth that is attracted to the flame the closer it gets, it seeks its own destruction. Its time for us to identify the problem and get with the solution!

No one is going to do for us but us. Remember: In the jungle: Bigger animals prey upon smaller animals and in return smaller animals prey upon bigger animals when they band together.

THIS IS THE LAW OF THE JUNGLE.

KILL OR BE KILLED

THERE ARE NO RULES- NEITHER IS THERE ANY TIME-OUTS

either a person is on you side or against you there are no neutrals.

there is only one way to walk and that is upright and with balance just as there is only one way to fight and that is to the death!

There is only one way to live and that is to be free both mentally and physically. If the question was asked: DO WE HAVE TO RELEARN HOW TO DO ALL THREE? HOW WOULD YOU ANSWER?

This is because there are some who have taken on the mantle of the franchise (Pharisees) and are so corrupt and as vile as the Senibes (Scribes) who claim to believe yet, their faith is as shallow as a puddle!

If the shepherds cannot bear the burden and the heat of the day, then it is clear:

They be pretenders!

Bringing disgrace to the title they have not earned or obtained by grace.

I've heard its been said: "No man can serve two Masters and every city divided against itself shall not stand.

Thus, the Scripture reads:

Woe to the idle shepherd that leaveth the flock! The Sword shall b upon his arm and upon his right eye: His arm shall be clean dried up and hi right eye shall be utterly darkened. (Zechariah 11-17)

For those of the flock who feel that they are safe because they attend weekl services, but what of your service to the most high?

Some, while on the way to their services to praise his name and hear th word of the most high turn up their noses and act like they are blinded to th sights they see in the sheets (Street's) which cause them to shake heads and tur away, forgetting what the bible states Jesus said:

41-Depart from Me ye cursed into everlasting fire prepare for the devil an his angels.

42- For I was a hungered and ye gave me no meat, I was thirsty and ye gave ne no drink. 32

43- I was stranger and ye took me not in naked and ye clothed me not sick ad in prison and ye visited me not.

44- Then shall they also answer them saying lord when saw we there a hungered or a thirst or a stranger or naked or sick or in prison and did not minister up to thee?

45- Then shall he answer them saying "Very I say unto you in so much as ye did not to one of the least of these, ye did it not to me.

This is "why," those of you who think you can just praise his name and do not his works shall be led away into everlasting punishment while the righteous into eternal life, which is why it is written: for the wages of sin are death but the gift of God is eternal life.

Bringing understanding to the scripture: But wilt thou know o vain man that faith without works is dead.

Therefore, it is most important not only to praise him but to also do his work. Anything less makes you a hypocrite and an accomplice of the evil one.

There are some who will ask: What is his work?

"UKUBUYISA"

"UKUBUYISA"= The bringing back and the rising of the spirit.

Redemption= reclaiming those termed- dumb, deaf, and blind

Resurrection= to bring back to life.

The Holy day= that silent and narrow path of righteousness.

This is where we separate the wheat from the chaff as we restore that which is ruined maintain that which is restored, chastise, the wicked and render, and honor to the righteous and give glory to whom it is due!

The Prophecy Reads

The last shall be called first and the first last

How long have we suffered being last under the hands of the oppressor?

How long have we cried O lord How long? How long?

Doesn't the Scripture read:

We are troubled on every side yet not distressed we are perplexed but not in despair prosecuted but not foresaken cast down, but not destroyed.

As well as I WILLTRY THEM AS GOLD

Therefore, we are being tired and tested and tested and tried and the fire shall try every one's work of what sort it is.

Thus, now is the hire for us to reclaim our rightful place. First we must put and stop to a the petty differences and establish a united front of self determination and love.

You shepherds!

Your duty is not only to be leaders but more so servants and guides, not only must you preach the doctrine of God and rise up the spirit on your flock's. You must also till and cultivate the land and make it fertile for a barrier land procedures a weak flock full of misery and destruction.

This is why I am asking all the churches, religious organizations to come together and pool their resources to stop this political, social and economical, and spiritual oppression, exploitation, degradation, and death 34

A shepherd protects his flock from wolves and snakes and whatever else can cause them harm when they are sick he leads them on to green pastures and fresh water and does what he can to make them better.

For there are many who have become lost they yearn to be found and accepted back into the fold and to work for the common good.

This I know from personal experience. My testimony is too long to set forth here but like my namesake, David in the Bible, I've fought many battles my hearts not reflect perfect but it's surely devoted. I've had unheated success and unbelievable failures. I've lived the life of an outlaw and renegade but one thing that for sure is the love I have for my people I've walked through hell and learned to come out right. So it is by grace that I say to you. I like not the sign of the times but I will fulfill my duty.

(Ezekiel 34:23-24)

Thus, It is said: come out of here my people that ye be not partakers of her sins and that ye receive not of her plaques.

The Black Church is well known for its participation in the Civil Rights Movement back n the 60s as well as being an institution of respectability in the black community but that was then and this is now what has the black church done on a collective basis to stop the madness that is inflicting our communities today? Being divided in doctrine and works, the church's voice, where once it was like thunder is now like a frightened whisper in the wilderness. Although there are some who are holding first to the faithful word, the majority are like the Church of Ephesus, who have been told to:

Turn from you sins and do what you did at first.

Our people are suffering due to:

1) The lack of community leadership
2) The separation of the family and lack of family values
3) The distrust of neighbors
4) The lack of educational and economical opportunities
5) The lack of growth and refinement of our youth and elders

This is how our communities are turned into ghettos and our people into slaves.

In many of our communities there are approximately 3 to 8 churches within an 8-block radius and if you take a closer look, if a liquor store isn't on every other block, you will surely find all the stores owned by outsiders who sell us inferior goods at inflated prices not to mention the Houses and building being owned by other changing US outrageous rents that we need an escape from reality. ~~Thus, the liquor stores and churches, drink your liquor and get drunk and high and go to church and pray to some white mystery God up in the sky.~~

This is why it is said: There be shepherds that do feed themselves.

The church used to be the heart and the soul of the black community where the power o God was manifested from within outwardly and used to dispel any evil and bring about positive things.

The black church brought land and built a school, built a store, built a hospital and raise a nation! Wasn't nobody sitting back and begging others for help? We had our own doctors, teachers, business, entrepreneurs, to housewives and handymen, all working together for a better life as they never forgot:

ALL FOR ONE AND ONE FOR ALL!

Now everyone wants to go their own way and do their own thing trying to be anything and everything than what we are: Black Folks

We need to take control of our life as a people and as a nation. If you don't like a certain area of town is all run down, buy the property and change it; once you own the property, you have the power to bring about change. If you refuse to use it, things will remain the same and you will be a sad accomplice to their plan of genocide.

We complain about "slum lords, high rents, foreign outsiders owning all the businesses in our communities and changing outrageous prices for inferior goods and disrespectful treatment on either complaining about the lack of jobs or jobs with no real future.

The Solution is Boycott, Buy Out and Build our own

As stated: there are an abundance of black churches in our community with such a diversity in its membership, ranging from the young to the old, all with a special skill in something that can taught and utilized for the benefit of us all.

Now, say we formed a coalition and formed a committee:

The Division of Economic Planning & Development

The division of economic planning and development would be one of our most important organized efforts with the following department:

A. Department for promotion of community cooperative enterprises:
    a. To conduct surveys to determine what the people want and need
    b. Soundness of project
    c. Ways and means of community financing and securing trained personnel and management

B. The Housing and development committee:
    a. Those skilled in craft and labor forces
    b. Up keep and Management

Both of these countries would be geared towards securing certain properties and

developing them creating our own stores, housing, as well as schools and hospitals, recreational centers, farms, industrial organizations, etc.

We would no longer be dependent on other for the basic necessities

There are some who will ask where will we get the money to do all of this or where will we get the labor and service personnel for the development and upkeep of such properties?

First of all, we already have the money to do this. There is just been a problem with putting it in the right hands and keeping it in the right pockets in order to utilize it for ou own good. The Black community spends x-amount of dollars a year and 60% of that is spent on stuff we don't really need and 30% of us spent on things. We could have ou grown ourselves.

Secondly, the most untapped resources of our communities other than our youth and the elderly are those considered the unwanted ex-prisoners, ex-addicts, etc which are equivalent to the stone the builders rejected that became the Cornerstone.

As "UKUBUYISA" is about bringing back and raising the spirit this is chance to be redeemed and resurrected and walk that new path of righteousness.

Most of these women and men already have one or two skills that they have never been given the chance to put to use, which is why some of them fallen into the types of lives that they are living and I believe that given the chance, they would want to return to the fold and be productive members of the community as this new sense of self-worth and determination instead of ostracized and obstacles. We must overcome.

Example: The ways and means committee has acquired the necessary finds to buy a stor front and an apartment building and for trained labor and management personnel.

Thus, the department for promotion of community enterprises has a stat to get in order, stock, and open for business and the housing development committee has an apartment

building to get in order and rent out.

[See Index #E]

The ways and means department has acquired the trained labor force and management personnel from within the community establishing job opportunities where there was none.

When the store is open for business managed by those in the community the money this store generates will open another store or supermarket a movie house etc.

The apartment building?

One way to cut cost on the upkeep and management is to initiate a buy in system where the tenants would be able to buy shares in the building with the central committee holding the controlling interest.

I truly believe that once a person has a financial stake in such property they become overly concerned with its upkeep so too,for those who helped in building or bringing such enterprise about.

So what we have is a self generating force,

Another building is brought a community center is opened a school, hospital, etc. This is what Marcus Garvey envisioned when he proclaimed:

Up you Mighty Nation!!

Schools are opened our children are taught how to learn and think for themselves instead of indoctrinated with negative principles and unproductive values, which make them enemies of their own kind.

Our learning centers will instill in our children a sense of racial pride and self-worth although understanding of our cultures and heritage and most importantly, a deep love and respect for the Almighty!

This is how we regain control of our communities by maintaining control of our lives

It is written: Sanctify the lord of host himself and let him be your fear and let him be your dread.

I'm not asking you to join me in some criminal enterprise or to do anything that is wrong in any way. I'm asking you to redeem yourselves and reclaim your heritage, even Jesus said:

Render to Caesar what is Caesar's and to God what is God's

When we establish a foundation such as "UKUBUYISA", we are doing the lords work and keeping with the great commandment:

"Love the lord your God with all your heart with all your soul and with all your mind"

As well as fulfilling the 2nd most important commandment:

"Love your neighbor as you love yourself"

Its time for our children, again, for our woman to have the love and respect as women do for our men to be men (the protectors or the family). As God's children, redeemed, resurrected and walking the path of the Holy Way.

My grandfather wrote: And the bridge was suspended between the two eternities arched so high up there that the watchmen could from his tower see all that had gone before and all that was come.

That is why the anxious, helpless peoples of this crazy world continue to look up in despair and cry:

"O Watchmen"

Tell us in this endless night just what signs are promises are!

I answer: Uhuru (freedom) is the watchword and self-discipline (heshima) is the law cooperation and mutual assistance (umoya) is the way.

"UKUBUYISA"

The way of redemption!

Thus the choice is yours..

"UKUBUYISA" or Genocide!
